**CALL FOR PAPERS**

**INTRODUCTION**

The conference has been organized in Thailand, Lao PDR. Vietnam, Myanmar, Philippines, Indonesia, China and India. As we have known, the sustainable development goals (SDGs) are formulated by United Nations with interrelated goals to guide global development between 2015 and 2030. We would like to group together to drive the solutions through high quality of research and development for contributing to the society. The Association of Agricultural Technology in Southeast Asia (AATSEA) has been organizing the International Conference on various topics in biological sciences, technology in agriculture and related fields that is needed for sustainable development of human being. AATSEA realizes its responsibility to serve the community by

providing education, research and development in biological science and technology, particularly in the multi-disciplinary aspects. Accordingly, this conference will be held in order to initiate an international network among academic members, researchers, scientists and people interested in science and technology. It is also aimed to serve as a venue for knowledge exchange and discussion among those seeking for new vision and insight in all topics related. For the technical point of view, the conference will explore various topics in the following sessions:

**Session 1: Modern Organic Agriculture, Smart Farms and AI**

**Session 2: Microbial Biotechnology**

**Session 3: Soil, water and Environment**

**Session 4 :Plant Biotechnology and pest management**

**Session 5: Animal Biotechnology (Fisheries Sciences, Entomology)**

**Session 6: Food Security, food Safety, Science and Postharvest Technology**
